Dear Earl,

I've not found a paper that reported the Butler speech or even where it wad!

It was at the National Press Club.

Introductory remarks were by the Eisenhower general, Good paster. Ike had him in the White House.

I have no reason to believe that you want it but if you do I've a typed copy of their remarks and a bit about them.

I've had a computer check made and I got the NY Times, Balt. Sun and Wall Street Journal for that and the following days.

Other military retirees, the Center for Defense Information, provided thid to us/

Hope you had a fine Thanksgiving and a good holiday season ahead.

Our best,

Herold
